Vianden International Music Festival

About Vianden Music Festival and School.

The Vianden Music Festival and School is set in the Grand Duchy of Luxembourg, in the 700 years old city of Vianden, a pearl of the Grand-Duchy with its well-known medieval castle. It is conceived as a program to promote better understanding between people through music-making. The Festival is a podium for talented young musicians and music lovers from all over the world to express themselves together through music.

The community of Vianden kindly agreed to host the Festival, providing an ideal environment for a unique and rich experience in an international setting.

The program is geared for high school-, college students and young professionals and is designed as an advanced training program for singers, pianists, composers and instrumentalists (violin, viola, cello, flute, oboe, clarinet & bassoon). The participants will be in residence in Vianden for two weeks each summer, working and performing intensively under the guidance of an internationally experienced staff.
